PERPUSTAKAAN

Perpustakaan Universiti Malaysia Perlis (UniMAP) kini lebih matang dalam menyokong aktiviti pengajaran, pembelajaran, penyelidikan dan perundingan Universiti. Pelbagai inisiatif diambil dalam memastikan setiap keperluan Universiti dipenuhi dengan sumber maklumat terkini. Perpustakaan kini dilengkapi dengan pelbagai perkhidmatan dan kemudahan mengikut peredaran teknologi maklumat. Pada tahun 2007, Perpustakaan menampakkan perkembangan pesat dalam pembangunan koleksi format (elektronik).

Perkhidmatan Sirkulasi

Perkhidmatan Sirkulasi merupakan perkhidmatan terpenting di dalam sesebuah Perpustakaan selain perkhidmatan-perkhidmatan lain.

Pemerkasaan Sumber Maklumat

Pembangunan koleksi sumber ilmiah merupakan satu agenda penting kepada Perpustakaan dalam memastikan setiap keperluan pengajaran, pembelajaran, penyelidikan dan perundingan Universiti dipenuhi. Berikut adalah jumlah koleksi yang dimiliki oleh Perpustakaan UniMAP sehingga tahun 2007. Perpustakaan kini telah memiliki 28,276 naskhah buku bercetak, 59 judul jurnal bercetak, 7,180 judul jurnal elektronik, 7,519 buku elektronik, 3,546 bahan media dan 1,250 koleksi bersiri dan dokumen yang tersiri daripada majalah, keratan akhbar, risalah, laporan tahunan dan prospektus.

Bagaimana EZProxy Membantu Anda?

Sehingga Januari 2007, pengguna Perpustakaan hanya mampu mengakses 11 pangkalan data atas talian langganan yang menawarkan capaian kepada berjuta-juta maklumat teks melalui rangkaian kampus sahaja. Akan tetapi sejak Februari 2007, pengguna Perpustakaan berupaya mengakses maklumat teks penuh daripada pelbagai lokasi tidak kira samada dari dalam atau luar negara tanpa batasan masa. Dengan adanya aplikasi EZProxy, pengguna mudah mengakses pangkalan data atas talian dengan hanya memperkenalkan diri melalui kata nama dan kata laluan.

Pangkalan Data Atas Talian : *Knovel Library*

Pada Jun 2007, Perpustakaan UniMAP telah melanggan Knovel Library yang menawarkan kurang lebih 994 judul buku elektronik. Bidang perkara yang diliputi di dalam Knovel adalah Aero angkasa, Teknologi Radar, Biokimia, Kejuruteraan Seramik, Kejuruteraan.

Malaysian University Libraries & National Library Network (MyUniNet)

Majlis pelancaran portal MyUniNet telah disempurnakan oleh Menteri Pengajian Tinggi, YB Dato' Mustapa bin Mohamed pada 9 Januari 2007. Portal ini dibangunkan atas hasil kerjasama dan perkongsian pintar antara ahli-ahli Persidangan Perpustakaan Universiti dan Negara (PERPUN).

Portal ini memuatkan pautan kepada :

- **Malaysian Theses Online (MYTO)**
  - Memuatkan maklumat tesis yang dihasilkan oleh semua IPTA dan 3 IPTS terpilih.
- **Malaysian Repository Collection (MURC)**
  - Menawarkan sumber ilmiah samada diterbitkan atau tidak diterbitkan
  - Abstrak artikel jurnal terbitan Penerbit Universiti, kertas kerja persidangan, teks ucapan terpilih.
- **Malaysian Gateway to Internet Resources (MGIR)**
  - Menawarkan sumber maklumat Internet dalam pelbagai bidang perkara tanpa perlu mengesan dan menapis hasil carian.

LIBRARY

The Library of University Malaysia Perlis (UniMAP) is more matured in supporting the university's research, consultation, teaching and learning activities. A lot of initiatives have been undertaken in ensuring the needs for the latest information is fulfilled. The library is currently equipped with various services that follow the current niche of information technology. In 2007, the library has extensively developed our collection in electronic format.

Circulation Service

Circulation service is the most salient feature in a library besides any other services.

Strengthening the Information Resource

The development of academic resource is vital in catering the university's research, consultation, teaching and learning needs.

Below in the number of collections owned by the UniMAP Library until the year 2007. PERPUSTAKAAN

- **Malaysian Union List of Serials (MYULIS)**
  - Mengandungi maklumat bahan terbitan bersiri seperti majalah dan jurnal yang dilanggan oleh IPTA, IPTS dan perpustakaan penyelidikan.
  - Sumber penting kepada permohonan pinjaman melalui Perkhidmatan Pinjaman Antara Perpustakaan.

Pangkalan Data Atas Talian

Menyedari betapa pentingnya sumber rujukan elektronik, Perpustakaan telah mengambil inisiatif untuk melanggan beberapa pangkalan data baru untuk ditambah setiap tahun. Sehingga tahun 2007, Perpustakaan UniMAP telah melanggan sebanyak 11 pangkalan data atas talian. Capaian maklumat 24 jam sehari, 7 hari seminggu dan 365 hari setahun tanpa batasan menjadikan sumber rujukan elektronik begitu penting.

Penerbitan

Dalam aspek penerbitan, Universiti terus bergiat dalam menerbitkan karya-karya asli pelbagai kategori penerbitan dalam Bahasa Inggeris dan Bahasa Malaysia terutamanya dalam kategori penerbitan ilmiah. Segala penerbitan ilmiah Universiti diusahakan oleh Unit Penerbitan, Perpustakaan selaku penerbit bagi pihak Universiti. Sepanjang tahun 2007, Unit Penerbitan telah menerbitkan lapan 8 judul buku, sebuah jurnal, 31 judul modul pengajaran dan makmal. Selain itu, Unit Penerbitan juga terlibat dalam menguruskan penerbitan bahan bukan ilmiah seperti buku program, poster, risalah, banting dan brosur. Sehingga 31 Disember 2007 sebanyak 23 bahan bukan ilmiah telah diurus terbit.

Online Database: Knovel Library

Online Database

Realizing the importance of electronic references, the Library has taken the initiatives to subscribe several new databases to increase the number annually. Until 2007, UniMAP Library has subscribed 11 online databases. The search for information 24 hours a day, 7 days a week and 365 days per year without any barriers has made electronic reference so essential.

Publication

The University is always active in publishing original literary works in various publication categories in both English and Bahasa Malaysia, especially in the scientific publication categories. All University scientific publications are made through the Library Publication Unit. In 2007, the Publication Unit published 8 books, one journal and 31 teaching and laboratory modules. In addition, the Publication Unit was also involved in organizing non-scientific material publications such as programme books, posters, articles, banners and brochures. Until December 31st 2007, 23 non-scientific materials were published
